METEORITE Collection

A.H4 (Allen)

A.H4 (Allen)

In A.H4 the essence of METEORITE is concentrated into a minimal size. It is characterized by its clear expression in form and the contrast of smooth and textured surfaces.

Deliberately clear and functional design choices, such as the use of sculptural elements typical of the collection, characterize the aesthetics of this design.

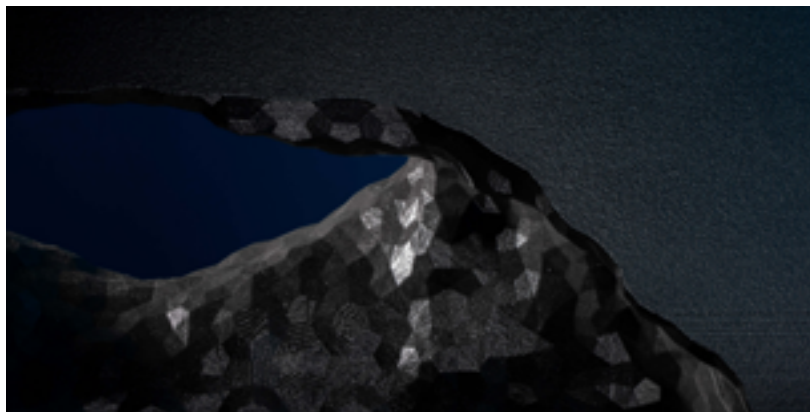

The small wall-mounted washbasin is made from 3D printed sand and is ideal for guest or secondary bathrooms.
